

WHITE SWORN CHIEF JUSTICE

Takes the Oath From Acting
Justice Harlan

IN THE SUPREME COURT

Gathering a Brilliant One—Every Available Foot of Space Is Filled by a Distinguished Crowd.

Washington, Dec. 20.—Edward Douglass White, for 16 years an associate justice of the supreme court of the United States, yesterday became the ninth chief justice of the nation.

The simple public ceremonies of installation were held in the presence of the bench and a distinguished gathering that filled every available inch of space in the little court room.

The oath of allegiance was administered by Associate Justice Harlan, just before the court took its place on the bench.

The new head of the court, obviously embarrassed, marched into the court room to his usual place on the bench in his capacity as an associate justice. As he took his seat, he smiled at his wife, who sat in a reserved seat beside his brother, James White of this city, and other relatives.

Presiding Justice Harlan, who has headed the tribunal since the death of Chief Justice Fuller, just July, after orders of the day had been made public, announced that Justice White had been appointed chief justice of the United States and was present and ready to take the oath of office. He presented

Terrible Suffering

Eczema All Over Baby's Body.

"When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a mask or cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was entirely cured. Today he is a healthy boy." Mrs. Inez Lewis, Barre, Maine. Hood's Sarsaparilla cures blood diseases and builds up the system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.

the congratulations of the court to the new chief and then read his commission.

This done, the presiding justice turned to his right, where sat the new chief justice, and in the presence of the standing gathering administered the judicial oath. The senior justice bowed the chief justice into the chair at the head of the court, extended his personal congratulations and himself resumed his old seat at the right of the chief justice.

For the first time in history an associate justice had been elevated to the chief justiceship, and for the first time a president and Senate of one political party had honored a member of a rival party by placing him at the head of the highest court in the land.

RUMLESS PUNCH SERVED.

Washington Society Girls Join the Temperance Ranks.

Washington, Dec. 20.—By common consent, "debutante punches" are to be strictly unfermented, and white ribbon bands are being formed among the belles and beaux of the national capital.

One of the first matrons to make use of the innovation was Mrs. William Haywood, mother of Miss Doris Haywood, when she introduced her daughter to society this week at a tea. Mrs. Haywood served grapefruit and fruit punch. The present temperance wave reminds the older residents of the vegetarian craze which struck local society several years ago in the wake of a declaration of Wu Ting Fang. Meat was tabooed, and strange and wonderful vegetarian compositions appeared.

But society, after following the new fad for a season or two, returned to the fleshpots.

WILL BE ZERO AT EQUATOR.

Dr. Wiley Says So, But It Will Not Be for a Million Years Yet.

Washington, Dec. 20.—Men will freeze to death on the equator millions of years hence, according to Dr. Harvey W. Wiley, to the secular league here Sunday, discussing the question, "Is man to ultimately starve or freeze?"

Dr. Wiley said he believed the earth was slowly cooling. "In the frigid days that are yet to come," according to Dr. Wiley, "the winds will serve as fuel. My knowledge of the laws of electricity, and from practical experiments already being made, I prophesy that the currents of air which have been agents of destruction to man will yet be harnessed for his benefit."

BEDOUINS TAKE MAAN.

Force 12,000 Strong Captures Town in the Kerak District in Syria.

Constantinople, Dec. 20.—It is announced that a force of Bedouin rebels, 12,000 strong, have taken the town of Maan in the Kerak district, in Syria.

NO REED RULES FOR SENATE

Sherman's Quorum-Court
Plan Resented

HALE'S SHARP LECTURE

Declares Pairs of Senators Must Stand.
The Members Enter the Chamber Prepared for Trouble.

Washington, Dec. 20.—As the result of a ruling by Vice President Sherman that a senator paired with another should be counted to make up a quorum, the Senate yesterday, on motion of Senator Hale, refused to accept the dictum, overruling it 37 to 17.

In making his motion, Senator Hale of Maine, the Republican floor leader, in his most solemn manner, proceeded to read a lecture to the vice president that must have made Mr. Sherman's ears tingle. The matter involved was immaterial, said Senator Hale, but it was the inviolable rule of the Senate that a quorum be composed of senators voting aye and nay. "I hope the chair will very carefully consider the question before seeking to enforce any other rule. No other test case has been analyzed by the Senate. Pairs are counted as absentees. If a senator paired is counted as part of a quorum, the purpose of the pair is violated. The chair did what never had been done before. I don't believe," continued Hale, sarcastically, "that the chair deliberately intended to improve upon the rules of the Senate, but I trust that when this question comes up again the chair will make a deliberate ruling."

The Senate passed a few minor bills and adopted the House resolution agreeing to adjourn on Wednesday for the Christmas recess, reconvening January 5.

"SENATOR LODGE IS ALREADY DEFEATED"

"And Will Never Return to the United States Senate," Says Gov.-elect Foss.

Lynn, Mass., Dec. 20.—Governor-elect Eugene N. Foss opened here last night his second series of meetings in his campaign against the re-election of United States Senator Henry Cabot Lodge and in his opening address reiterated his previous statements that he himself is not a candidate to replace the senior senator.

Mr. Foss named several so-called progressive policies to which, he asserted, Senator Lodge is opposed, and added: "Senator Lodge has just given strong proof of the insincerity and unsoundness of his position by coming out for tariff revision, as he has just done in a speech in the Senate."

"To do this now in this hour of extremity, when he knows that the sentiment of his state is overwhelmingly against his re-election, is a proof of weakness, not of character. The people have rendered their verdict in the last election. Senator Lodge is already defeated and will never return to the United States Senate."

TENNEY APPOINTED.

He Will Direct Boston Nationals Next Season.

Boston, Dec. 20.—The appointment of Fred Tenney, a former first baseman of the club, as manager of the Boston Nationals for 1911, was announced yesterday by President W. H. Russell. Fred Lake, who managed the club last season, and who has a contract for another year, will be retained in some other position, as the directors of the club are appreciative of his efforts, not only during the past season, but in the recent reorganization.

Tenney made his entry into professional business in 1894, when he was engaged as first baseman on the Boston Nationals, after a brilliant amateur career at Brown university. He played with Boston for over 10 years and then for a few years on the New York National league team. Last season he played with the Lowell team of the New England league.

FOR GRADUATE COACHING.

Syracuse Football Leaders Will Discuss It Informally.

Syracuse, Dec. 20.—The question of graduate football coaching at Syracuse university will be informally considered at a meeting of present and former Syracuse varsity players here this evening. A strong alumni demand has arisen for graduate coaching, and whatever recommendations may be adopted at to-night's meeting will have great weight with the athletic authorities. Among those mentioned as possibilities under the graduate system is "Bill Horr," an old all-American tackle and coach at various institutions in the middle West.

REAL NAVY FOR PORTUGAL.

Acquisition of Three 19,000-ton Battleships, Three Cruisers.

Lisbon, Dec. 20.—It is expected that a constituent assembly will convene in April. The present plans call for the creation of a single chamber legislative body of 200 members, which will elect the president of the republic for a five-year term. The special naval commission appointed under the provisional government recommends the acquisition of three 19,000-ton battleships with a speed of 21 knots, each carrying ten guns, three 3,000-ton and 22-knot cruisers; 12 20-knot torpedo boat destroyers and six submarines. American constructors will be invited to bid for the new vessels.

LABOR OPPOSES MANN BILL.

Amendment to Locomotive Boiler Inspection Law Pending in the House.

Washington, Dec. 20.—President Taft yesterday talked with H. E. Willis, the legislative representative of the various railroad unions, regarding the amendment proposed to the locomotive boiler inspection law by the Mann bill, now pending in the House. Mr. Willis opposed the Mann bill. He said that the law needed amendment, but that the Mann bill would make it worse than ever. President Taft has taken the matter up with Representative Mann.

A CRISIS IN CHINA

Senate Renews Demand for
Cabinet

TAKES STEPS TO IMPEACH

Grand Councilors—Issue Put Squarely Up to the Throne—Must Either Dissolve Senate or Dismiss Council.

Peking, Dec. 20.—The fight of the imperial Senate to abolish the grand council and to establish a constitutional cabinet was renewed yesterday in the face of the throne's rejection of the recent memorial.

The imperial Senate convened amid much excitement yesterday. The seats of the throne appointees, who constitute one-half of the membership, were conspicuously vacant.

A resolution was introduced that the Senate impeach the grand councilors with the object of forcing the throne to create a constitutional ministry or to dissolve the Senate. It was declared that the two bodies were irreconcilable. Not a voice was raised in defense of the government, for the reason, probably, that on previous occasions such spokesmen had been shouted down. The resolution was adopted by a big majority, only 25 of the membership of 200 voting against it.

The galleries were crowded with enthusiastic progressives and interested foreigners.

USED BOYS TO STOP BULLETS.

Robbers Overcome After Exciting Running Fight.

Grand Junction, Col., Dec. 20.—After a running fight between three robbers who had looted a store at Clifton, six miles from here, Sunday, and citizens, one of the robbers was killed and the other two were captured. A clerk who had been bound and gagged by the robbers was found Sunday morning and men started after the robbers. Four small boys who were hunting rabbits found the three in a deserted dugout. Three of the boys covered the robbers with their small calibre rifles, while the fourth went for help. Before the officers arrived, the robbers had succeeded in making the three boys prisoners and forced them to carry part of the stolen goods for eight miles. When the pursuers overtook them, each robber held a boy as a shield, keeping up a running fire.

W. H. Harrison, father of two of the captured boys, took a desperate chance and shot one of the robbers. The others surrendered.

THE COLONEL'S EXPENSES.

Proposed Investigation as to Who Paid Them.

Washington, Dec. 20.—A congressional investigation of Theodore Roosevelt's railroad transportation expenses while he was president is directed in a resolution introduced yesterday by Representative Rainey of Illinois, a Democrat. It was referred to the committee on rules.

It provides that a committee of five members be selected in such manner as the House may direct to investigate how much, if any, of these expenses were paid by Mr. Roosevelt or by anyone acting for him. It further provides for inquiry as to the contracts made for him, or anyone acting for him, while president, with the Pennsylvania railroad or its officials, or the demands for transportation made by Theodore Roosevelt, while president, on said road.

The committee would report as to the amount of transportation furnished Mr. Roosevelt, its value and whether any portion of it was paid and when. The committee is to make the same investigation with regard to other officials furnishing similar transportation.

HOLIDAY joys will be greater if you get the Christmas presents for the boys and men where boys' and men's things are the whole stock. This store is the Christmas headquarters for the kind of gifts men want. Here you will find

\$30,000,000,000 OF TRADE.

This Year to Break All Records, Says Bureau of Statistics.

Washington, Dec. 20.—The calendar year 1910 is going to be the banner year for the world's international trade, according to the bureau of statistics. The bureau has received reports from 27

countries, which cover from six to ten months of the calendar year 1910. In all of the 27 countries, the figures of imports and exports show an increase of about 9 per cent. in the monthly averages as compared with the corresponding period of 1909.

Exports will probably show a value of \$14,000,000,000, while imports will be more than \$16,000,000,000.
